Erasmus+

Welcome to the Faculty of Civil and Geodetic Engineering

Dear Students,

Welcome to the Faculty of Civil and Geodetic Engineering at the University of Ljubljana and thank you for considering our institution as the host for your student exchange.

This Welcome Guide has been designed for foreign students who wish to do part of their studies at our Faculty within the Erasmus+ exchange programme. We hope this Guide will help to make your stay at our Faculty both successful and enjoyable.

Should you have any questions or inquiries, please do not hesitate to turn to the contact persons mentioned in this Guide.

We wish you a pleasant stay in Ljubljana and at our Faculty of Civil and Geodetic Engineering.

ABOUT THE FACULTY

Faculty of Civil and Geodetic Engineering in Numbers

FGG is divided in eight scientific areas:

- geodesy,
- municipal economics and spatial planning,
- materials and structures,
- construction management,
- traffic and traffic constructions,
- hydraulic engineering,
- construction IT, and
- basic subjects.

Study programs (2019/2020)

- 5 undergraduate programs-B1
- 5 graduate programs-B2
- 2 doctoral programs-B3

Employees (2019)

- 209 in total
- 87 academic staff

Students (2018/2019)

- 600 regular undergraduate students
- 70 graduate students

The work is carried out in 21 educational-research units, 2 laboratories and 3 institutes.

STUDY PROGRAMS AT THE FACULTY OF CIVIL AND GEODETIC ENGINEERING

Link: <https://www.en.fgg.uni-lj.si/study/>

1st Cycle Studies

Academic Studies

- Civil Engineering
- Geodesy and Geoinformation
- Water Science and Environmental Engineering

Higher Education Professional Studies

- Construction Management
- Technical Real Estate Management

In the academic year 2019/20 the Faculty of Civil and Geodetic Engineering will provide the first cycle study programs: Civil Engineering, Geodesy and Geoinformation, and Water Science and Environmental Engineering.

Together with the established modernised studies Construction Management and Technical Real Estate Management they represent another step closer to meeting the demands from the labour markets and the expectations of the European area.

Studies of Civil Engineering, Construction Management, Geodesy and Geoinformation, Technical Real Estate Management, Water Science and Environmental Engineering are excellent guarantee to spend one's career engaged in interesting work, cooperating with important people and in inspiring projects. All these occupations are in high demand and employment after finished degree is virtually guaranteed.

STUDY PROGRAMS

2nd Cycle Studies

- Civil Engineering
- Geodesy and Geoinformation
- Buildings
- Spatial Planning
- Water Science and Environmental Engineering

In the academic year 2019/20 the Faculty of Civil and Geodetic Engineering will offer four complete 2nd cycle study programmes: Geodesy and Geoinformation, Civil Engineering, Buildings and Water Science and Environmental Engineering, as well as the first year of the 2nd cycle study programme Spatial Planning.

3rd Cycle Studies

- Built Environment
- Environmental Protection

In the academic year 2019/20 the Faculty of Civil and Geodetic Engineering is offering the 3rd cycle doctoral study Built Environment.

The doctoral study Built Environment combines four scientific areas: civil engineering, geodesy, spatial development and geology.

UL FGG is also actively cooperating at the interdisciplinary doctoral study Environmental Protection.

INSTRUCTIONS FOR INCOMING ERASMUS+ STUDENTS

Selection of courses and language of instruction

- The available courses are published on the UL FGG web page: <https://www.en.fgg.uni-lj.si/>.
- Your Learning Agreement was confirmed in advance. However, be advised that your learning agreement may change upon arrival at the UL FGG due to some possible revisions of the study programmes.
- In general, the language of instruction is Slovenian. For foreign students, some courses are fully available in English. The list of these courses is updated each year and announced at the UL FGG web site. Other courses may be partially available or individual consultations are offered in English. Study materials and examinations are prepared in English.

Grading system

ECTS and institutional grading scale:

Slovenian grade	ECTS grade	Definition
10 (Excellent)	A (Excellent)	Outstanding performance with only minor errors.
9 (Very Good)	B (Very Good)	Above the average standard but with some errors.
8 (Very Good)	C (Good)	Generally sound work with a number of notable errors.
7 (Good)	D (Satisfactory)	Fair but with significant shortcomings.
6 (Poor)	E (Sufficient)	Performance meets the minimum criteria.
5 – 1 (Unsatisfactory)	F, FX (Fail)	Considerable further work is required.

Upon arrival

- Contact International Office, **Ms. Romana Hudin**, Faculty of Civil and Geodetic Engineering, room P-3 (ground floor), Jamova 2, 1000 Ljubljana.
✉ romana.hudin@fgg.uni-lj.si
- According to the timetables and your Learning Agreement you will receive information about responsible teachers of individual courses.
- You should regularly attend the classes according to the published timetables. For the courses delivered in the form of individual consultations, you should contact the teachers within one week after arrival. They will define your obligations, study literature, seminar work, etc.
- If you wish to change your Learning Agreement, discuss the changes with adequate teachers and bring the form Changes to Original Learning Agreement to International Office.

NOTE:

At a special welcome meeting at the beginning of each semester you will meet Slovenian student tutors for foreign students who will help you get around, as well as other foreign students at the UL FGG.

Exams

- You should register for exams through web pages for students.
- The grades will be reported to the International Office by the teachers.
- You should finish all the defined obligations and exams before you leave and go back home. It is not allowed to make exams from your home institution.

Facilities for students

- UL FGG provides access to the Eduroam WiFi network. In order to use it, ensure beforehand that you are able to use Eduroam when still at your home institution.
- Digital Identity: You will receive a user name for the Digital Identity as a student of the University of Ljubljana. To activate your ID, go to: <https://id.uni-lj.si/>.
- The Faculty of Civil and Geodetic Engineering provides 6 computer rooms with access to computers and useful software facilities.
- You will have access to the Library of UL FGG in the opening hours from 8.00 AM to 7.00 PM (Fridays from 8.00 AM to 3.00 PM). As student of the University of Ljubljana you will also be entitled to use other libraries of the University of Ljubljana, as well as the National and University Library and the Central Technical Library.

University of Ljubljana

University of Ljubljana was established in 1919. It consists of 26 members; 23 faculties and 3 academies: Biotechnical Faculty, Faculty of Economics, Faculty of Architecture Faculty of Education, Faculty of Electrical Engineering, Faculty of Pharmacy, **Faculty of Civil and Geodetic Engineering**, Faculty of Chemistry and Chemical Engineering, Faculty of Health Sciences, Faculty of Law, Faculty of Mathematics and Physics, Faculty of Maritime Studies and Transport, Faculty of Computer Science and Informatics, Faculty of Social Work, Faculty of Mechanical Engineering, Faculty of Social Sciences, Faculty of Sports, Faculty of Administration, Faculty of Arts, Faculty of Medicine, Faculty of Natural Sciences and Engineering, Faculty of Theology, Veterinary faculty, Academy of Music, Academy of Theatre, Radio, Film and Television, and Academy of Fine Arts and Design

Rector: **Prof. Dr. Igor Papič**
